Magma Films is an independent production company operating from its main office in Galway, Ireland. Its subsidiaries are based in Hamburg and Belfast.

In animation, Magma occupies a strong niche position in the marketplace for the creation of high concept programmes. Long running series and animated feature films have been co-produced with Magma's proven international network in the Nordic countries, France, Germany, UK, Eastern Europe, Canada and USA.

Magma has an established live action track record over the past 20 years, both in the international and domestic markets. A slate of exciting feature films, children's drama, event television and light entertainment formats are currently in development and production.

By combining skills from classical animation, 3D CGI and live action, Magma is developing exciting products with an innovative visual style.

It's all about storytelling.
